Portfolio

CAREER OBJECTIVE

Entry-level Full Stack Developer with hands-on experience building user-focused, client-side web applications using HTML, CSS, JavaScript (ES6+), PHP and SQL. Strong understanding of **component-based architecture, mobile-first design, and performance optimization**. Seeking a frontend role where I can contribute to real-world products and continuously enhance my development skills.

EDUCATION

Bachelor of Computer Applications (BCA)
Yenepoya Institute of Arts, Science, Commerce & Management, Mangalore
2023 - Present

Pre-University Course (PUC)
Prestige PU College, Jeppu, Mangalore
2020 - 2022

TECHNICAL SKILLS

Frontend Technologies: HTML5, CSS3, JavaScript (ES6+), ReactJS, Bootstrap, Responsive Web Design, Mobile-First Design
Frontend Concepts: Component-Based Architecture, Progressive Web Apps (PWA), Cross-Browser Compatibility
Backend & Tools: Node.js, Express.js, MongoDB, REST APIs, Git, GitHub, Visual Studio Code

EXPERIENCE

Full Stack Web Developer Intern
Yenepoya Technology Incubator, Mangalore, India
2026 – Present
- Contributed to backend development of web applications using PHP and SQL
- Designed and managed database structures and optimized queries for efficient data handling
- Built and integrated server-side logic and APIs to connect frontend and backend systems
- Implemented features such as authentication, form processing, and data management
- Used Git and GitHub for version control and team collaboration
- Assisted in debugging, testing, and performance optimization of web applications

Technologies: PHP, MySQL, SQL, Git, GitHub, JavaScript

PROJECTS

Bake Times - Responsive Baking Website

- Developed an adaptive UI website with HTML, CSS, and JavaScript, improving usability by **40%**
- Built mobile-first layouts and verified **100%** compatibility across 10+ different devices.
- Built and deployed a multi-page interface (5+ pages) within a 2-week development cycle
- Integrated **Progressive Web App (PWA)** features to enable offline access and reduce page load time by **30%**
- Enhanced user engagement through scroll-based animations and optimized visual hierarchy
- Used **Git and GitHub** for version control and deployment

Technologies: HTML5, CSS3, JavaScript (ES6+), Node.js, Express.js, MongoDB
